IMPORTANT NOTICE

Due to the recent outbreak of COVID-19 (Coronavirus), and that our Nation is under a National Emergency, we are complying with government laws and regulations, and advice from professionals to continue safe practices at all of our Southern California Cement Masons Training Centers. We will remain open and operating with a few changes to fulfill safety guidelines for everyone. The training schedule remains the same as the letter we mailed to all apprentices for the week of training. All apprentices are required to report to the training center on the date they are scheduled to attend. Please contact the apprenticeship office (626) 258-4074 for any questions or concerns. Be safe everyone.
